To Whom It May Concern:

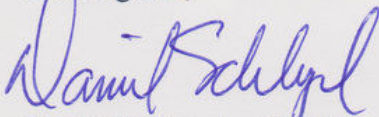

During the last few years my firm has had the opportunity to work with Mr. Chaz Henderson of Henderson & Company, Inc. Throughout this time frame I have found Chaz to be a very straight forward, honest, and hard working contractor. I would not hesitate to invite his company to bid any of my projects as I am confident that they would be performed to the highest quality in a timely manner.

Of particular interest in our past association is a project involving the construction of nine new golf holes at the Blue Ridge Trail Golf Course in Mountaintop, PA. These golf holes were constructed on a beautiful but rugged piece of property in the Pocono region. The original contractor was relieved of the work due to the fact that he was not properly performing to his contract. The course was left in a complete state of disarray from not being finished and not being protected from months of weather without any stabilization. Henderson and Company was hired to finish the work on this project. The finished product is an outstanding composition of golf holes that are fun to play. Chaz's company was able to finish the work with excellent results, on the time line agreed upon with the owner, and on budget without excessive change orders. They even repaired numerous areas of the original work that needed attention.

I am aware that this course has retained Henderson & Company to return to the course to perform new projects on areas of the facility that were not worked on previously.

As stated above, Henderson & Company is welcome to bid any work that is generated from my firm. I am confident in their ability to perform above expectations. Upon review of this letter, should you have any other questions, do not hesitate to give me a call at the numbers listed below.

Best regards,

Daniel Schlegel, ASGCA  
Principal
