March 13, 2015

Over the past ten years Henderson and Company has completed various renovation work at Blue Ridge Trail Golf Club, a 27 hole facility in northeast Pennsylvania. The work has ranged in scope from simple drainage to construction of greens, tees, bunkers and major water features. Chaz has been great to deal with and his work outstanding, within budget and on time. After previously working with contractors who have their own agenda, it was refreshing to work with someone who is easy to communicate with and has a passion for what he does. He will work closely with the Superintendent and Architect to bring their vision to fruition. I highly recommend Chaz and his company to any golf course who is considering renovation work. If anyone would like to discuss his work in more detail please feel free to contact me.

Sincerely,

Duane Schell

Golf Course Superintendent

Blue Ridge Trail Golf Club
