

We are pleased to write this reference letter for The Henderson Company. Two years ago we hired Chaz and his team off the recommendation of our Architect on Retainer Jim Cervone. They constructed 3 new greens and installed over a thousand yards of cart path. We found the Entire Henderson staff to be very knowledgeable, professional, and co-operative throughout the entire construction process. In addition, after construction completion, they have been responsive and thorough in addressing any minor issues associated with the project.

We look forward to using the Henderson Company in the future.

We would recommend the Henderson Company to you without hesitation.
